Monowaxer Wax Heater 2.5L

The structure is made of steel and the lid and the tank of aluminium.
Capacity: 2,5L
Outer size: 24.7 x 24.5 x 16cm
Temperature range: 0- 105°C

CODE: 282WKE009
Price: €110.00

Twinwaxer Twin Wax Warmer 2L

Double-tank wax heater with capacity for 2,5 litres each (5L) with independent thermostat.
Outer size: 50 x 24.5 x 24.5cm
Inner size: 17.5/ Height: 13cm
Temperature range: 0- 105C

CODE: 282WKE010
Price: €200.00

Finex

Digital paraffin heater for hand and foot care with timer. Paraffin heater 5L

CODE: 282WKE004
Price: €150.00

Melly- Paraffin Heater 2.7L

Paraffin heater for hand care. The temperature can be adjusted in two fixed positions.
Capacity: 2,7 l

CODE: 282WKE005
Price: €80.00

biotec italia

XLASE PLUS LASER MEDICAL PLATFORM

Xlase Plus represents a unique innovation within the panorama of laser technologies, and this is why it fully meets the needs of the medical professional. A versatile and cutting-edge platform, Xlase Plus features a modular design that offers multiple application solutions, all integrated into a compact and reliable device.

The only platform to integrate diode laser and solid state pumped laser in the same device.

Easyplug: the connection of the laser source with automatic recognition allows you to switch from one laser to another quickly and safely.

IceSpeed, available in 1200W and 4000W versions, is a concentrate of cutting-edge technology: it uses the 810nm wavelength, the 'motion speed' operating mode that allows you to cover large areas in a very short time, the module cooling with "efficient cooling" technology and pulse management in "Super Burst" mode, making it one of the best semiconductor lasers on the market.

AlexPro, with 4000W of power, is a technology exclusive to Biotec Italia. It manages simultaneously the wavelengths 760nm (Alexandrite) and 808nm, dosing them in the desired percentages depending on the phototype and characteristics of the hair. It combines all the characteristics of alexandrite with the advantages of diode

- 20,000,000 Shots guaranteed
- FREE training (theory & practice)
- After sales service

6 Laser handpieces for various medical aesthetic treatments can be used with the Xlase plus:

- Laser Diode 810 and Alex Pro
- SLP Nd:Yag 1064/532nm
- QS Nd:Yag 1064/532nm
- Er:Yag fractional 2940nm
- CPL (Calibrated Pulsed Light)
- Affinity Er:Yag 2940nm

biotec italia

SUPREME STANDING ALEXPRO

INNOVATIVE LASER DEVICE FOR THE PERMANENT REDUCTION OF FACIAL AND BODY HAIR AND FOR SKIN STIMULATION WITH DIODE LASER TECHNOLOGY & ALEXANDRITE 7 on the same handpiece.

AlexPro handpiece, with 4000W of power, is a technology exclusive to Biotec Italia. It manages simultaneously the wavelengths 760nm (Alexandrite) and 810 nm (diode), dosing them in the desired percentages depending on the phototype and characteristics of the hair. It combines all the characteristics of alexandrite with the advantages of diode

Maximum comfort and satisfaction with the results obtained.

MAXIMUM SAFETY: Reliability and high safety for the operator and the customer thanks to very high production standards.

VERY SHORT RECOVERY TIMES: Resumption of normal daily activities immediately after treatment.

GUARANTEED COMFORT: Absolute comfort during treatment, thanks to ergonomic handpieces and skin cooling technologies that guarantee protection.

FEW AND FAST TREATMENTS: Possibility of treating multiple areas simultaneously in the same session for faster results on larger area

- 20,000,000 Shots guaranteed
- FREE training (theory & practice)
- After sales service

Supreme ONE

INNOVATIVE DEVICE FOR PERMANENT REDUCTION OF BODY & FACIAL HAIR AND BIOSTIMULATION OF THE SKIN WITH DIODE LASER TECHNOLOGY.

Diode Applicator

The demand for hair removal of large areas of the body is constantly growing but the technologies used so far have shown limits, in many cases due to the excessive time required to obtain definitive results and sometimes the presence of side effects to the treatment. The diode laser represents the choice of choice for permanent hair removal, allows a fast treatment, in maximum comfort and is able to treat all skin types. The solution for epilation, painless, fast and effective.

- 20,000,000 Shots guaranteed
- FREE training (theory & practice)
- After sales service

COAX MED ONE - Medical Platform for Face & Body Treatments

COAXMED ONE

CoaxMed One is a revolutionary device which combines the action of five different technologies for face & body in a single platform.

Multiple face technologies

SkinTite® : Fractional monopolar RF.

Ablaze®: The cryo-radiofrequency that safely reshapes the skin.

Cooltec®: Cools down the head of the handpiece and protects the skin's surface.

3Density® modulates the field frequency thus assuring a three-dimensional and even penetration of the radio frequency.

Propatch: made of disposable saline gel, it guarantees sterility and uniformity in radio frequency emission, eliminating the risks of burns.

EndoShape®: Traction and tissue biostimulation a synergistic action of rhythmic suction and radiofrequency

CFU (Hifu)

The technological innovation, able to act in depth, previously only achievable with surgery.

Multiple technologies for the body

DuoShape® - RF & Cavitation

3Density® it automatically modulates the frequency of the field for a three-dimensional and homogeneous penetration of the RF with water cooling ultrasound frequency at 28 kHz (Cavitation)

Vaculase®

Laser at 810 nm, Vacuum, Cryo for lymphodrainage

Cryoliposculpt® for the remodeling of the silhouette.
(Cryolipolysis)

Handles

biotec Italia

LYSIWAVE

Lysiwave is a patented, cutting-edge device that combines the action of microwaves with the simultaneous delivery of a flow of cooled air directly to the treatment area.

Intended aesthetic use

- Skin laxity treatment.
- Body contouring.

The synergy of microwaves and airflow is the ultimate evolution of the [body contouring procedure](#).

While eliminating fat cells, it also stimulates cellular metabolic processes and collagen production, [reshaping](#) the silhouette.

It penetrates deep into the cell membranes of subcutaneous fat cells to dissolve localised adiposity. The lysate is eliminated by natural cell metabolism ([lipolysis](#)).

It stimulates the connective tissue surrounding the adipose lobules of cellulite, diminishing the 'orange peel' effect.

It causes the contraction of collagen fibres in the dermis, stimulating the production of new collagen, firming and toning the tissue.

MEDISCULPT

[Innovative machine for body toning.](#)

[ELECTROMAGNETIC ENERGY WHICH INDUCES MUSCLE CONTRACTIONS OTHERWISE NOT REPETABLE WITH VOLUNTARY MOVEMENTS.](#)

- Up to four different areas can be treated in the same session..
- Short treatment times.
- Immediate resumption of normal daily activities.
- Comfort and safety during treatment.
- SHIFTPULSE technology.
- Pre-set and Personalized Programs.
- Simultaneous toning and fat reduction of the treated area.
- ACE, cooling of the applicators by means of fluid.

[Fit4® technology: incomparable treatment speed.](#)

MEDISCULPT includes Fit4® technology, which allows you to treat up to 4 areas of the body simultaneously, reducing the number of applications.

biotec italia

RENOVA (HIFU, Mesotherapy, RF, Microdermabrasion)

THE EPITOME OF STYLE AND TECHNOLOGICAL RESEARCH.

Multifunctional platform combines several technologies in a high-tech device.

RenovaOmnia is a unique technological innovation, combining several technologies into one safe and non-invasive system for facial and body procedures.

This combination is the key to an amazing increase in the quality of the aesthetic results. RenovaOmnia is therefore a technological modular platform that guarantees absolute efficacy of the treatments: a real generator of beauty and wellbeing with a unique and exclusive design.

Unique treatment protocols have been developed by Biotec Italia experts in order to maximize the effect of each treatment, thus enabling intervention on specific areas with different treatment combinations.

-CFU (HIFU)

-Monopolar RF

-Bipolar RF

-Fractional RF with microneedling-

-Microdermabrasion (crystals)

-Mesotherapy (electroporation)

biotec italia

CFU - E LIFE

HYPERHIDROSIS THERAPY, NON-SURGICAL FACE LIFT AND REDUCTION OF FAT ACCUMULATIONS.

THE MEDICAL PROCEDURE THAT USES HIGH INTENSITY FOCUSED ULTRASOUND WITH AN INNOVATIVE APPLICATION METHOD

Compared to traditional HIFU, CFU-E life drastically reduces the treatment time by using the new EASYFLOW application method and by modulating the ultrasound emission frequency up to 10Hz.

The operator has the possibility of personalising the treatment by choosing the most suitable transducer for the depth to be reached, calibrating the power and mode of ultrasound emission appropriately, according to the patient's characteristics, the area to be treated and the result to be obtained.

Intended aesthetic use:

Firming and skin rejuvenation

Non-invasive lifting effect of the face and of the neck

Inelastic skin of the neck and cleavage

Reduction of periocular, maxillary and nasolabial wrinkles

Treatment of build-ups of localized fat

Treatment of acne scars

INTRAJECT

Intraject is a cutting-edge medical device that combines three technologies with proven clinical efficacy: Radiofrequency, Electroporation and Plasma energy.

Intraject is composed of three generators that operate with different frequencies and pulses, controlled by highly sophisticated software.

- **Intended medical use**

Treatment of keloids, hypertrophic scars and acne.
Non-invasive blepharoplasty.
Treatment of Xanthelasma.

- **Aesthetic intended use**

Neck lift and excess skin (arms and abdomen).
Improved facial contour.
Treatment for enlarged pores.
Treatment of superficial and deep wrinkles.
Treatment to reduce hair loss.

EXHILA

-Microdermabrasion (microcrystals)

-Sonoporation (ultrasound)

-Enriched oxygen.

THE COMPLETE SOLUTION FOR FACIAL IMPERFECTIONS

Microdermabrasion with inert crystals, sonoporation with low frequency ultrasound, enriched oxygen with nitrogen filtration of ambient air.

Exhila renews, nourishes and revitalizes the cells of the skin.

The exfoliation and renewal of the skin takes place every day as a normal cellular process. The time it takes the cells cyclically on average to renew and migrate to the stratum corneum is about 16-20 days. Unfortunately, with aging the cell regeneration process takes longer and longer. In addition, health problems and pollution play an important role in slowing down skin regeneration.

Indications

Exhila is a safe and non-invasive device, simple to use, capable of effectively treating the following blemishes:

Smoothing of the skin

Treatment of aesthetic skin imperfections

Ageing by ultrasound

Price: €500.00

Μια επαναφορτιζόμενη πένα με μικροσκοπικό φινίρισμα που έχει σχεδιαστεί για να βελτιστοποιεί την αποτελεσματικότητα των ενεργών συστατικών, επιτρέποντας εύκολα την απορρόφηση του προϊόντος σε βαθύτερα στρώματα του δέρματος.

Το Microneedling είναι μια ελάχιστα επεμβατική θεραπεία που συνίσταται στην τοπική εφαρμογή ενός προϊόντος με συγκεκριμένες ιδιότητες και στη δημιουργία ενός μεγάλου αριθμού μικροκαναλιών (με τη χρήση μικροσφαιριδίων) που φτάνουν σε ένα προκαθορισμένο βάθος, επιτυγχάνοντας έτσι διπλή δράση.

■ Τιμή πακέτου x 12 needles = €45.00+ΦΠΑ

■ Τιμή x1 needle = €4.30+ΦΠΑ

Smart Resistive Radiofrequency

Smart Capacitive Radiofrequency

Smart Transcutaneous Drive

Πλεονεκτήματα Smartdrivity™

- 1) Διεγείρει το κολλαγόνο και την ελαστίνη.
- 2) Προωθεί βιοχημικές διεργασίες.
- 3) Μεταβολική ενεργοποίηση.
- 4) Επιταχύνει την επανόρθωση των ιστών.
- 5) Ενισχύει τα τοιχώματα των τριχοειδών αγγείων.
- 6) Αυξάνει τη δραστηριότητα των ινοβλαστών.
- 7) Αγγειοδιαστολή.
- 8) Αυξάνει την οξυγόνωση των ιστών και των κυττάρων.
- 9) Παραγωγή Κολλαγόνου.
- 10) Επανατοποθετεί τον ιστό του δέρματος.
- 11) Αυξάνει την κυκλοφορία στα αιμοφόρα αγγεία.
- 12) Διευκολύνει την αποστράγγιση.
- 13) Αυξάνει τη λιπόλυση και αναστέλλει τη λιπογένεση.
- 14) Ενεργοποίηση κυττάρων.
- 15) Διαδερμική διανομή ενεργών συστατικών τελευταίας τεχνολογίας.

1 ώρα και 15 λεπτά
περιποίησης με πρωτόκολλο
για την αναπλήρωση όγκου,
λάμψης και ανάπλασης.

Η τεχνική συνδυάζει τη τεχνική μασάζ του μηχανικού modelling με τη χρήση ενός εύκαμπτου περιστροφικού οβάλ tip.

ΣΤΗΝ ΕΠΙΦΑΝΕΙΑ:

Επιφανειακό modelling του επιδερμικού ιστού

ΕΝ ΤΩ ΒΑΘΕΙ:

Δονήσεις που προκαλούν ακούσιες συσπάσεις των μυών (αντανεκλαστικές συσπάσεις).

- Βελτίωση της κυκλοφορίας
- Τόνωση προσώπου
- Καταπολέμηση της χαλάρωσης των ιστών

STEREX

SX-B Sterex Blend Epilator

CODE: 20815005

Price: €1,500.00

Η STEREX SX-B αποτελεί την μοναδική από τη γκάμα των 3 σε 1 συσκευών αποτρίχωσης που διαθέτει ηλεκτρολόγιο αφής και καθαρή ψηφιακή απεικόνιση που την κάνει απλή στη χρήση. Χρησιμοποιώντας την τελευταία τεχνολογία αυτή η συσκευή μπορεί να χρησιμοποιηθεί ως Διαθερμία, Γαλβανικό ή συσκευή αποτρίχωσης Blend καθιστώντας την κατάλληλη για όλους τους τύπους τριχοφυΐας.

SX-T Sterex Epilator - Digital

CODE: 20815006

Price: €1,200.00

Η STEREX SX-T διαθέτει ηλεκτρολόγιο αφής και καθαρή ψηφιακή απεικόνιση που την κάνει απλή στη χρήση. Αυτή η συσκευή αποτρίχωσης είναι μόνο μια Διαθερμία και λειτουργεί με στυλό αποτρίχωσης που διαθέτει διακόπτη αλλά που μπορεί επίσης να χρησιμοποιηθεί ποδοδιακόπτης, και στυλό αποτρίχωσης χωρίς διακόπτη αν αυτή είναι η προτίμηση.
